[Student 3068](#) - Vincent was an excellent TA! He designed interesting new problem sets, displayed a lot of knowledge about the subject, and was very willing to help whenever needed.

[Student 18056](#) - Extremely detailed and clear tutorials! At the same time, there was always space to discuss potential research ideas, inspired by course material, which was super helpful and exciting.

[Student 51072](#) - Vincent is a phenomenal instructor. He understands the material deeply and cares a lot about making sure the students get as much as possible out of the class. He was very organized, gave feedback and announcements quickly, and he worked with students individually to help them learn the material. He organized material during his recitation lectures in a way that made clear the core ideas of an area and the exciting research directions we could pursue. Vincent was a key contributor to my learning and enjoyment of this class and I would love to take more classes with him!

[Student 51866](#) - Vincent was one of the best TAs I've had at MIT. He was a great recitation instructor and super helpful regarding problem sets and other assignments. I liked the combination of presenting slides and doing math on the blackboards that he did. In addition, he was super patient and helped me learn in a class that was perhaps over my head at times.
